WHAT IS AN ENDOWMENT?

• An endowed fund is a permanent fund that is established by a donor to help ensure the long-term sustainability of nonprofit organizations by providing a permanent source of support.

• At community foundations endowed funds are pooled and invested to achieve long-term growth by balancing principal protection with distributions. Contributions to endowed funds at qualified community foundations may be eligible for Endow Iowa tax credits.
How an Endowment Fund Works

An establishing gift is made and forms the principal.

How much impact do your Donors want to have 100 years from now?

What happens if you receive an unrestricted estate gift?

Through your Gift Acceptance Policy, your board can direct that unrestricted gifts be placed into your endowment fund.

Guidelines for the size and portion to be placed into your endowment fund can be determined in advance and provide parameters for future gifts.

Establishing these guidelines prior to receipt a gift allows your board to be strategic, rather than make a rush decision.
IRA ROLLOVER

A special rule made permanent by Congress in 2015 allows certain donors to use their IRA assets to make a “Qualified Charitable Deduction” without incurring income tax on the withdrawal from the IRA. Some limitations include:

- Donor must be age 70 ½ or older at the time the gift is made
- The transfer must be made from the IRA administrator directly to the charity
- Contributions cannot be made to a Donor-Advised fund, supporting organization or private foundation
With fewer taxpayers itemizing, donations from retirement accounts are looking better and better.

There are real benefits for older donors who give from their IRA accounts, but too few know about the option.
A donor is an endowment prospect if you can answer ‘yes’ to the following points:

- Has been in an ongoing relationship with the charity
- Has charitable interest
- Has money, stocks, property or other assets to give
- Has confidence in gift officer and the charity
IDEAS TO CULTIVATE PROSPECTS

1. Understanding the process (ability to give / affinity)
2. Discover and understand each donor’s personality style, dreams and fears as it relates to the process
3. Set and achieve clear goals for each scheduled personal visit

Moves management refers to the process by which a prospective donor is moved from cultivation to solicitation. “Moves” are the actions an organization takes to bring in donors, establish relationships, and renew contributions.
