

MODERATE POOL SUMMARY

As of December 31, 2025

The Moderate Pool is designed to be intermediate to long-term in nature and capital appreciation is the primary goal. The portfolio makes investments only in liquid, publicly traded securities. This Pool is for agencies and endowments, where the time horizon is in excess of five years but liquidity is a focus. The portfolio is allocated across:

- ❖ **Asset class** (stocks, bonds, real estate, diversified mutual funds)
- ❖ **Region** (U.S., developed international, emerging markets)
- ❖ **Market Cap** (large, mid, and small size companies)
- ❖ **Style** (value and growth)
- ❖ **Liquidity** (daily liquid investments)

ASSET ALLOCATION

❖ Domestic Stocks	31%
❖ International Stocks	15%
❖ Core Fixed Income	48%
❖ Diversified Mutual Funds	5%
❖ Cash	1%

PERFORMANCE

*Inception: 10-2013

GROWTH OF ASSETS OVER TIME

QUARTERLY COMMENTARY

Global markets delivered broadly positive results, supported by financial conditions, resilient economic data, and sustained enthusiasm for artificial intelligence. U.S. equity investors digested elevated valuations and year-end volatility without a deterioration in earnings fundamentals. International developed equities posted solid gains, aided by monetary easing in Europe and reflationary expectations in Japan, while emerging markets benefited from continued demand for AI-related semiconductors.

Fixed income gained as the Federal Reserve delivered expected rate cuts and the yield curve continued to normalize. Real estate performance remained mixed, with U.S. REITs lagging global peers amid comparatively tighter financial conditions. Hedge funds and other diversifying strategies generated solid performance amid shifting risk sentiment and heightened geopolitical uncertainty.

FROM OUR INVESTMENT PHILOSOPHY

The moderate pool is globally diversified, providing exposure to a wide range of asset classes. Such diversification allows the pool to benefit from the strong performance of individual asset classes while mitigating the negative impact of poor performance in any single asset class.

The pool will have approximately half of its assets invested in public equity with the remainder in fixed income and liquid diversifying strategies. The goal of the pool is to generate returns in excess of fixed income over a five-year time horizon while maintaining 100% daily liquidity of the assets.
